

PSYC-1000-003
Introduction to Psychology

The University of Winnipeg
 Fall/Winter 2021/22
 Mon/Wed/Fri

Instructor: Dr. Mike Lee
 Email: m.lee@uwinnipeg.ca
 Time: 9:30 – 10:20
 Office Hours: by appointment

Teaching Assistant: Anastasiya Balashova

Email: balashova-a@webmail.uwinnipeg.ca

Office Hours: Wednesdays 1 – 2pm or by appointment

Zoom: <https://us02web.zoom.us/j/3564394189?pwd=UDFIYXBCbkRDamdiU1FNQzBEcnFYdz09>

Meeting ID: 356 439 4189

Telephone: (431) 336-4637

COURSE OBJECTIVES:

- To become aware of the major psychological approaches to the study of behaviour.
- To become aware of the major aspects of behaviour investigated by psychologists.
- To become familiar with the contributions of major figures in the field.
- To become familiar with major research findings and theories of the field.
- To become conversant in the unique language of psychology.
- To learn the methodology of psychology and its limitations.
- To become an informed consumer of psychological information.
- To gain self understanding and a greater understanding of others.
- To recognize ways to apply psychological findings to everyday life.
- To learn to appreciate the necessity of a multi-level explanation of behaviour.
- To become fascinated by the study of behaviour and mental processes!

COURSE DESCRIPTION:

This course is intended to introduce the student to the major areas of psychology, and is a requisite for all other courses in psychology. No prior knowledge of psychology is assumed, and so the course can serve as either a first course for psych majors/minors or as a taste of the field for non-majors. Major subfields of study within psychology that will be examined will include history, developmental, neuroscience, sensation, perception, learning, cognition, memory, personality, abnormal psychology, clinical, and social psychology. As you will learn, there is probably more to psychology than you ever realized! We will explore from a variety of domains how psychologists theorize about and conduct research in answering questions about human nature, particularly, individual and group behaviour and mental processes. From this one course, many of you who decide to continue in psychology will probably get a good idea of what areas of psychology interest you the most. Given the vast amount of material to be covered in this course, our goal is breadth, not depth! But we should delve into all of the areas sufficiently enough for you to undertake a good foundational understanding of all the basic areas that define psychology as a whole.

Generally speaking, psychologists are scientists who are trying to understand human behaviour ... why do humans act the way we do? As this course will show you, there are many different ways one can approach and try to answer this question. For example, some psychologists address this issue at the level of the brain. Such physiological psychologists ask questions like how is information passed along in the brain? Do certain parts of the brain control certain behaviours?

What would happen if certain parts of the brain were damaged? Other psychologists, termed social psychologists, are more interested in the effect that other humans have on our behaviour. They study such things as conformance to authority, the variables that cause prejudicial behaviour, etc. Still other psychologists, termed cognitive psychologists, study the mental processes that underlie certain behaviours. How does information get into memory? How does attention work?

This course is a survey course meant to give you this "big picture" of the various approaches that have been used, and the major findings that have come, so far, from each approach. It is essentially a "best of" psychology course. By the end of the course you should have a good idea of what kinds of psychology you like, what kinds you don't like, and whether you want to pursue psychology in more detail.

METHOD OF TEACHING:

Lectures will constitute 90% of the teaching format. Films, in-class demonstrations, and other audio-visual materials will comprise the remaining 10%. Class participation and discussion are encouraged where and when appropriate. Lectures will be used (a) to clarify, illustrate or apply information brought out in the textbook; (b) to delve more intensively into topics covered by the textbook; and (c) to examine material not discussed in the textbook. Students are encouraged to attend all classes, as some material covered in class is not included in the text. Similarly, students should become very familiar with the assigned textbook chapters, as some material covered in the text is not included in lectures.

REQUIRED TEXT:

An Introduction to Psychological Science, Third Canadian Edition, Krause et al.

COURSE REQUIREMENTS:

• There will be four unit exams; 2 in each term	10% x 4
• A unit/review exam during each evaluation period in December and April	20% x 2
• Discussion/participation component for each term	10% x 2
	=100

These will be described in further detail during the first class.

Although much of the text and lectures will coincide there will be several occasions when information in the text is not covered in class and information covered in class will not be in the text.

Unless otherwise specified, exam questions will be based on all material covered in class, and all material presented in the textbook. You should base your reading of the textbook throughout the year around the course schedule listed below.

Research Requirement: All students are expected to meet the Introductory Psychology research requirement. Students who fail to meet this requirement automatically receive a full step grade reduction to their final grade (e.g. A becomes A-, A- becomes B+, etc). This is described in further detail in the second part of this outline and will be discussed further during the first class.

GRADING SCHEME:

A+	95-100 (or at instructor's discretion)
A	86-94
A-	81-85
B+	76-80
B	70-75
C+	66-69
C	60-65
D	50-59
F	0-49

Note: A final percentage grade that has a fractional component will be rounded up if it is .5 or more, and downward if it is .499... or less. For example, a final score of 79.5% would be rounded up to 80%, but a score of 79.3% would be rounded down to 79%.

Also, note that as for all University of Winnipeg courses, these cutoffs are tentative and may be changed in either direction by a) the professor, b) the departmental review committee, or c) the senate, when circumstances warrant.

CLASS SCHEDULE & IMPORTANT DATES:**Fall Term 2021*****Unit One:***

Sept 08 – Oct 06	Chapter One Chapter Two Chapter Three	Introducing Psychological Science Reading and Evaluating Psychological Research Biological Psychology
------------------	---	---

Unit One Exam: October 08

Mid-Term Reading Week: October 10 – 16, No classes

Unit Two:

Oct 18 – Nov 12	Chapter Four Chapter Five Chapter Six	Sensation and Perception Consciousness Learning
-----------------	---	---

Unit Two Exam: November 15

Unit Three:

Nov 17 – Dec 08

Chapter Seven
Chapter EightMemory
Thought and Language**Mid-Term Exam: TBA (during Fall evaluation period: Dec 10 – 23)****Winter Term 2022****Unit Four:**

Jan 07 – Feb 04

Chapter Nine
Chapter Ten
Chapter ElevenIntelligence
Human Development
Motivation and Emotion**Unit Four Exam: February 07**

Final day to voluntarily withdraw: February 16

Mid-Term Reading Week: February 20 – 26, no classes

Unit Five:

Feb 09 – Mar 18

Chapter Twelve
Chapter Thirteen
Chapter FourteenPersonality
Social Psychology
Health and Stress**Unit Five Exam: March 21****Unit Six:**

Mar 23 – Apr 16

Chapter Fifteen
Chapter SixteenPsychological Disorders
Therapies**Final Exam: TBA (during Winter evaluation period: Apr 8 – 22)**

Zoom:

Lectures will be delivered via the Zoom platform and all course content will be available through the Nexus learning system.

Tests/exams are proctored through a live Zoom meeting and may also be recorded locally for later review. Proctors will be monitoring for any evidence of academic dishonesty. Each proctor will monitor a small group of students simultaneously. Students must sit and face an engaged camera to enable monitoring. Microphones can be muted. After being reviewed for academic dishonesty, any recordings made will be promptly deleted if no such evidence is found.

As part of this monitoring, please note:

- Each student's name and everything within their camera's view, including their face, body and background, will be visible to the proctor and to the other students within the group.
- If a student uses the chat feature, anything written will be visible to all meeting participants.
- If a student chooses to un-mute their microphone, anything said will be heard by all meeting participants.

Zoom has been configured to disable students from recording the test/exam. Information regarding Zoom's data collection, including a link to its privacy policy, can be found at <https://www.uwinnipeg.ca/privacy/zoom-privacy-notice.html>. Student personal information is collected under the University of Winnipeg Act and 36(1)(b) of the Freedom of Information and Protection of Privacy Act. For information regarding privacy at UWinnipeg, contact Dan Elves, Senior Information and Privacy Officer, at da.elves@uwinnipeg.ca or 204.988.7538.

Course Policies:

Questions via e-mail

The professor encourages students to ask questions—in person—before, during, or after class, or during office hours. Email is only an acceptable means of communication for discussion of course policy, scheduling make-up exams, and other administrative topics. The professor will not discuss course content over email.

Academic concession

Students may apply for concessions by emailing the Teaching Assistant. The teaching assistant (TA) may grant concessions to students who have conflicting responsibilities (e.g., religious holidays, competitive sports) or unforeseen events (e.g., physical or emotional illness of the self or a close friend or family member). If these circumstances befall you, please notify the TA by email as soon as possible. If the TA grants a concession, the test/assignment will either be rescheduled or excused. If the student provides acceptable documentation from an appropriate authority within 7 days of the due date, the TA will approve the concession. Otherwise, approval is at the TA's discretion. If a student fails to complete an assignment on time and does not receive a concession, the student will receive a 0 for that assignment.

Exams

Students may not use books, calculators, electronic devices (including smart phones) or any other aids during exams, except their UW student card, pens, pencils, and erasers. Drinking containers are also permitted. Students need to bring pens, pencils and erasers to examinations. The professor will not provide any to students. Students must have their UW student card available during exams for identification purposes.

Academic misconduct

All of the University regulations concerning academic misconduct (e.g., plagiarism, cheating, failing to submit an examination on time) apply in this course. See the Course Calendar for full details. updated 17 Dec 2015 4

University Policies:

Students with documented disabilities, temporary or chronic medical conditions, requiring academic accommodations for tests/exams (e.g., private space) or during lectures/laboratories (e.g., access to volunteer notetakers) are encouraged to contact Accessibility Services (AS) at 786-9771 or email accessibilityservices@uwinnipeg.ca to discuss appropriate options. Specific information about AS is available online at <http://www.uwinnipeg.ca/accessibility>. All information about a student's disability or medical condition remains confidential.

The University asks that you please be respectful of the needs of classmates and instructors/professors by avoiding the use of unnecessary scented products while attending lectures. Exposure to scented products can trigger serious health reactions in persons with asthma, allergies, migraines or chemical sensitivities. Please consider using unscented necessary products and avoiding unnecessary products that are scented (e.g. perfume).

All students, faculty and staff have the right to participate, learn and work in an environment that is free of harassment and discrimination. The UW Respectful Working and Learning Environment Policy may be found online at www.uwinnipeg.ca/respect.

Students may choose not to attend classes or write examinations on holy days of their religion, but they must notify their instructors at least two weeks in advance. Instructors will then provide opportunity for students to make-up work and/or examinations without penalty. A list of religious holidays can be found at: <http://uwinnipeg.ca/academics/calendar/docs/important-notes.pdf>

Students facing a charge of academic or non-academic misconduct may choose to contact the University of Winnipeg Students' Association (UWSA) where a student advocate will be available to answer any questions about the process, help with building a case, and ensuring students have access to support. For more

information or to schedule an appointment, visit our website at www.theuwsa.ca/academic-advocacy or call [204-786-9780](tel:204-786-9780).

Avoiding Academic Misconduct: uploading essays and other assignments to essay vendor or essay trader sites (file sharing sites that are known providers of essays for use by others who submit them to instructors as their own work) involves “aiding and abetting” plagiarism. Students who do this can be charged with Academic Misconduct.

Avoiding Copyright Violation: Course materials are owned by the instructor who developed them. Examples of such materials are course outlines, assignment descriptions, lecture notes, test questions, and presentation slides. Students who upload these materials to file sharing sites, or in any other way share these materials with others outside the same class without prior permission of the instructor/presenter, are in violation of copyright law and University policy. Students must also obtain instructor/presenter permission before photographing or recording slides, presentations, lectures, and notes on the board.
